Mandapa

"Architecture Made Intimate."

Mandapa is the pillared hall — the space between shelter and sky, the threshold where the built world becomes a place of gathering. Twelve homes in Jubilee Hills where structure is the luxury, and every column earns its position.

12
Exclusively private villas.
One community, permanently defined.

10
Year retained estate management team,
contractually committed post-possession.

0
Material substitutions permitted
after design approval. None. Ever.

CONFIDENTIAL — FOR AUTHORISED PARTIES ONLY

THE DEVELOPER

Arch

"Architecture Is a Statement, Not a Service."

35 Years · Commercial Real Estate
10M+ Sq Ft Delivered · Residential Debut

ABOUT ARCH

Arch was founded by architects who refused to become developers. Every project begins with a structural idea, not a market analysis. The numbers follow the vision — never the reverse. Mandapa is Arch's residential statement: twelve villas in Jubilee Hills where the architecture is the product, and the product is defined by craft that will be visible in fifty years.

BRAND ARCHITECTURE

35 YEARS | 10M+ SQ FT | COMMERCIAL TRACK RECORD | RESIDENTIAL DEBUT

JUBILEE HILLS | 12 VILLAS ONLY | NO PHASE TWO

THE CONCEPT

Architecture Made Intimate.

12

Dark slate ground, stone white light, copper patina accent. The palette of raw concrete, weathered brass, and the specific grey of Hyderabad granite at first light.

SCALE

Not selling units. Curating a community. Twelve villas. Not a phase one — the whole project, permanently complete.

SERVICE

Permanent estate team. Concierge per family. Contractual — ten years post-possession. The service is the product.

PERMANENCE

No phase two. No adjacent plot. The twelve-villa structure makes expansion architecturally impossible.

MATERIALS

No substitution after design approval. Designed to a standard — then built to it. What you see is what you receive.

LEGACY

The twelve founding families become the permanent character of this address. Governed and covenanted to last.

LOGOMARK

M

Initial mark — geometric, inscriptional, scale-invariant. Works embossed, engraved, or reversed on any surface.

LOGO RULES

> The mark is structural — it is always presented on a material that has physical presence: stone, metal, concrete. Never on synthetic or coated stock.

> The mark must breathe — minimum 20mm clear space on all sides in all physical applications.

> Never animate or digitally distort the mark — it is a structural form, not a graphic element.

VOICE & TONE

Structure

Primary register — the first impression

Craft

Secondary register — the material world

Three Worlds Within One

01

The Pillared Garden

A private garden defined by a colonnade of eight hand-dressed granite columns supporting a wisteria canopy. The architecture of the garden is as deliberate as the architecture of the house. A place where structure and nature reach an agreement.

02

The Architectural Pool

A pool of raw Kota stone set within a precise concrete frame — no organic curves, no decorative tile. The geometry is absolute. The water is held by the structure, not contained by it. Copper ladder, single fixed light source, depth at 2 metres throughout.

03

The Craft Studio

A private workshop and studio of 600 sq ft — concrete floor, high north-facing glazing, copper worksurfaces. A space for making, drawing, or simply thinking with the hands. A resident architect available to discuss the house, its details, or anything else that requires precision.

The Villas — Mandapa

12
PRIVATE VILLAS

Rs 13–20
CRORE RANGE

G+2
THREE-FLOOR CONFIGURATION

EXCLUSIVITY

No shared walls. No shared lobbies. No shared anything.

Every villa is a free-standing structure. Each owner's relationship with the community is voluntary, not architectural.

INTERIOR

Materials specified. Materials delivered.

Every surface, fixture, and fitting is named in the agreement. No substitutions, no compromises. What the drawing promised is what possession delivers.

OUTDOORS

A private garden. A private pool. A private sky.

Each villa owns its outdoor space outright. Landscape design is bespoke — handled by the project's retained design team at the buyer's direction.

PERMANENCE

The community is the twenty-fourth resident.

12 owners define the community forever. The estate management team ensures it stays exactly as designed — from day one through decade three.

FIVE BRAND CLAIMS

What Mandapa Does Not Share With Anyone

01

SCALE

"We are not in the business of selling units. We are curating a community."

Twelve villas. Not a phase one. The complete project. Where competitors count floors, Mandapa counts families.

02

SERVICE

"We have retained an estate team, contractually, for ten years post-possession."

Not outsourced to whoever wins the next contract. Permanent. Named. Accountable to the twelve families — no one else.

03

PERMANENCE

"There is no phase two. The structure makes expansion architecturally impossible."

Your investment cannot be diluted by a second phase. Your address cannot change by what gets built next door. Structurally protected.

04

MATERIALS

"No material substitution is permitted after design approval."

What you see in the show apartment is what you receive on possession. Zero substitution. Contractual. Unconditional. Written in the sale deed.

05

LEGACY

"The twelve families who take possession become the permanent character of this address."

The project is governed and covenanted to preserve that character across generations. Not a home. A founding position.

Three Creative Languages

01

Structure

The primary register. The first impression of Mandapa — immediate, unhurried, decided. Every visual choice earns this feeling without announcing it.

02

Craft

The material mood. Grounded in place and stone and time. Mandapa does not abstract away from the physical world — it celebrates the finest version of it.

03

Copper patina

The underlying register. Mandapa does not say what it is — it is known to those who know. This mood is for the collector who needs no introduction.

The Location — Mandapa

HYDERABAD

Prashashan Nagar
Jubilee Hills

THE ADDRESS

Jubilee Hills, Prashashan Nagar

One of India's most established residential precincts. The density of wealth, taste, and institutional proximity here is unmatched in the city. The postcode is itself a credential.

THE CONTEXT

Malibu of Hyderabad

Not a comparison — a reference point. The privacy, the altitude, the views, and the neighbours define the Jubilee Hills premium. Mandapa is at its centre, not its edge.

PROXIMITY

5 minutes from everything. 0 minutes from privacy.

The finest schools, hospitals, clubs, and cultural institutions are within minutes. The outside world is available when wanted — never intrusive when not.

THE ADDRESS THAT NEEDS NO INTRODUCTION.

Mandapa

"Architecture Made Intimate."
