# Nidra

*"Where Rest Has Its Own Address."*

*Nidra is not sleep. It is the state before thought returns — the interval that belongs entirely to you. Twelve addresses where that interval becomes a permanent condition of being home.*

---

**12**
Exclusively private villas.
One community, permanently defined.

**10**
Year retained estate management team,
contractually committed post-possession.

**0**
Material substitutions permitted
after design approval. None. Ever.

10M+ Sq Ft Delivered · Residential Debut

ABOUT KĀLA

Kāla builds on the understanding that time reveals quality. Every material is chosen for decade five, not year one. We do not build for the market. We build for those who outlast it. Nidra is our proof — twelve villas in Jubilee Hills, made for families whose relationship with time is entirely their own.

BRAND ARCHITECTURE

35 YEARS | 10M+ SQ FT | COMMERCIAL TRACK RECORD | RESIDENTIAL DEBUT

JUBILEE HILLS | 12 VILLAS ONLY | NO PHASE TWO

THE CONCEPT

# *Where Rest Has Its Own Address.*

12

Deep charcoal ground, bone white surface, moonlit silver as the single cold accent. The palette of rooms that hold night inside them.

### SCALE

Not selling units. Curating a community. Twelve villas. Not a phase one — the whole project, permanently complete.

### SERVICE

Permanent estate team. Concierge per family. Contractual — ten years post-possession. The service is the product.

### PERMANENCE

No phase two. No adjacent plot. The twelve-villa structure makes expansion architecturally impossible.

### MATERIALS

No substitution after design approval. Designed to a standard — then built to it. What you see is what you receive.

### LEGACY

The twelve founding families become the permanent character of this address. Governed and covenanted to last.

## LOGOMARK

N

Initial mark — geometric, inscriptional, scale-invariant. Works embossed, engraved, or reversed on any surface.

## LOGO RULES

> The mark is never heavier than the lightest text on the page — it appears, it does not announce.

> Minimum clear space: the full x-height of the logotype on all sides.

> Never reversed onto a warm or saturated ground — the mark belongs to cool, neutral surfaces only.

## VOICE & TONE

*Dream*
Primary register — the first impression

*Hush*
Secondary register — the material world

*Silver light*
Underlying register — what is never said aloud

## COLOUR SYSTEM

Primary Surface Accent Light Reserve

*Deep charcoal ground, bone white surface, moonlit silver as the single cold accent. The palette of rooms that hold night inside them.*

## TYPOGRAPHY

Aa Bb Cc

01 02 03

# Three Worlds Within One

01

## The Dream Garden

A walled private garden conceived entirely around the experience of dusk and dawn. Night-blooming jasmine, silver-leaf olive, low-voltage copper path lights. The garden is at its finest when the city is asleep.

02

## The Moonlit Pool

A matte-black tiled pool lit from beneath with cool-white submersibles. At full moon, the water holds a single complete reflection of the sky. Temperature controlled to 28°C at all hours. One lounger. No others.

03

## The Sleep Library

Acoustically isolated. Pale oak shelves, linen reading chairs, blackout glass. A curated collection of literature designed for slow reading. A white-noise system calibrated to the specific acoustic frequency of deep forest rain.

PRIVATE VILLAS

Rs 13–20
CRORE RANGE

G+2
THREE-FLOOR CONFIGURATION

EXCLUSIVITY

### *No shared walls. No shared lobbies. No shared anything.*

Every villa is a free-standing structure. Each owner's relationship with the community is voluntary, not architectural.

INTERIOR

### *Materials specified. Materials delivered.*

Every surface, fixture, and fitting is named in the agreement. No substitutions, no compromises. What the drawing promised is what possession delivers.

OUTDOORS

### *A private garden. A private pool. A private sky.*

Each villa owns its outdoor space outright. Landscape design is bespoke — handled by the project's retained design team at the buyer's direction.

PERMANENCE

### *The community is the twenty-fourth resident.*

12 owners define the community forever. The estate management team ensures it stays exactly as designed — from day one through decade three.

FIVE BRAND CLAIMS

# *What Nidra Does Not Share With Anyone*

01

## SCALE

*"We are not in the business of selling units. We are curating a community."*

Twelve villas. Not a phase one. The complete project. Where competitors count floors, Nidra counts families.

02

## SERVICE

*"We have retained an estate team, contractually, for ten years post-possession."*

Not outsourced to whoever wins the next contract. Permanent. Named. Accountable to the twelve families — no one else.

03

## PERMANENCE

*"There is no phase two. The structure makes expansion architecturally impossible."*

Your investment cannot be diluted by a second phase. Your address cannot change by what gets built next door. Structurally protected.

04

## MATERIALS

*"No material substitution is permitted after design approval."*

What you see in the show apartment is what you receive on possession. Zero substitution. Contractual. Unconditional. Written in the sale deed.

05

## LEGACY

*"The twelve families who take possession become the permanent character of this address."*

The project is governed and covenanted to preserve that character across generations. Not a home. A founding position.

# *Three Creative Languages*

01

## *Dream*

*The primary register. The first impression of Nidra — immediate, unhurried, decided. Every visual choice earns this feeling without announcing it.*

02

## *Hush*

*The material mood. Grounded in place and stone and time. Nidra does not abstract away from the physical world — it celebrates the finest version of it.*

03

## *Silver light*

*The underlying register. Nidra does not say what it is — it is known to those who know. This mood is for the collector who needs no introduction.*

# *The Location — Nidra*

HYDERABAD

## *Prashashan Nagar*
## *Jubilee Hills*

THE ADDRESS

### *Jubilee Hills, Prashashan Nagar*

One of India's most established residential precincts. The density of wealth, taste, and institutional proximity here is unmatched in the city. The postcode is itself a credential.

THE CONTEXT

### *Malibu of Hyderabad*

Not a comparison — a reference point. The privacy, the altitude, the views, and the neighbours define the Jubilee Hills premium. Nidra is at its centre, not its edge.

PROXIMITY

### *5 minutes from everything. 0 minutes from privacy.*

The finest schools, hospitals, clubs, and cultural institutions are within minutes. The outside world is available when wanted — never intrusive when not.

THE ADDRESS THAT NEEDS NO INTRODUCTION.
