# Prāna

*"Breathe. Own. Belong."*

*Prāna is not a house. It is a living system — where architecture steps back and the oldest materials take precedence: stone, water, light, and the specific weight of roots that have been here for forty years.*

*"Nature Engineered to Perfection."*

35 Years · Commercial Real Estate
10M+ Sq Ft Delivered · Residential Debut

ABOUT GROVE

Grove emerged from a belief that the finest living is the most natural. We engineer environments where architecture disappears into landscape. Our materials are alive — our buildings hold that life. Prāna is our most complete work: twelve villas in Jubilee Hills, where the boundary between inside and outside has been deliberately erased.

BRAND ARCHITECTURE

35 YEARS | 10M+ SQ FT | COMMERCIAL TRACK RECORD | RESIDENTIAL DEBUT

JUBILEE HILLS | 12 VILLAS ONLY | NO PHASE TWO

THE CONCEPT

# *Breathe. Own. Belong.*

12

Dark forest ground, warm cream light, amber honey accent. The palette of filtered canopy light, river stone, and the particular gold of late afternoon in a mature garden.

### SCALE

Not selling units. Curating a community. Twelve villas. Not a phase one — the whole project, permanently complete.

### SERVICE

Permanent estate team. Concierge per family. Contractual — ten years post-possession. The service is the product.

### PERMANENCE

No phase two. No adjacent plot. The twelve-villa structure makes expansion architecturally impossible.

### MATERIALS

No substitution after design approval. Designed to a standard — then built to it. What you see is what you receive.

### LEGACY

The twelve founding families become the permanent character of this address. Governed and covenanted to last.

## LOGOMARK

P

Initial mark — geometric, inscriptional, scale-invariant. Works embossed, engraved, or reversed on any surface.

## LOGO RULES

> Always set the mark in a natural material context — embossed on uncoated stock, laser-etched on wood, never on synthetic or coated surfaces.

> Never smaller than 18pt in any printed application — the mark must be legible to the eye without effort.

> The mark is always static — no animated, digital-only, or motion versions are permitted.

## VOICE & TONE

### *Breath*

Primary register — the first impression

### *Growth*

Secondary register — the material world

### *Amber warmth*

Underlying register — what is never said aloud

# Three Worlds Within One

01

## The Forest Walk

A private 600-metre botanical path through heritage-species plantings, medicinal gardens, and mature canopy. A resident botanist tends the walk. Stone benches at three points. The path changes with each season — intentionally.

02

## The Breathing Pool

A natural-chemistry pool surrounded by living plant walls — no chlorine, no chemicals. Water purified through a planted biofilter and ultraviolet system. Temperature at body warmth by dusk. The pool is as alive as the garden that feeds it.

03

## The Rooftop Observatory

A third-floor open terrace with observatory-grade dark-sky lighting. Fire table, twelve-seat long table, cooling mist. A resident astronomer hosts monthly sky sessions for the community. The city is below. The sky is here.

THREE-FLOOR CONFIGURATION

EXCLUSIVITY

### *No shared walls. No shared lobbies. No shared anything.*

Every villa is a free-standing structure. Each owner's relationship with the community is voluntary, not architectural.

INTERIOR

### *Materials specified. Materials delivered.*

Every surface, fixture, and fitting is named in the agreement. No substitutions, no compromises. What the drawing promised is what possession delivers.

OUTDOORS

### *A private garden. A private pool. A private sky.*

Each villa owns its outdoor space outright. Landscape design is bespoke — handled by the project's retained design team at the buyer's direction.

PERMANENCE

### *The community is the twenty-fourth resident.*

12 owners define the community forever. The estate management team ensures it stays exactly as designed — from day one through decade three.

FIVE BRAND CLAIMS

# *What Prāna Does Not Share With Anyone*

01

## SCALE

*"We are not in the business of selling units. We are curating a community."*

Twelve villas. Not a phase one. The complete project. Where competitors count floors, Prāna counts families.

02

## SERVICE

*"We have retained an estate team, contractually, for ten years post-possession."*

Not outsourced to whoever wins the next contract. Permanent. Named. Accountable to the twelve families — no one else.

03

## PERMANENCE

*"There is no phase two. The structure makes expansion architecturally impossible."*

Your investment cannot be diluted by a second phase. Your address cannot change by what gets built next door. Structurally protected.

04

## MATERIALS

*"No material substitution is permitted after design approval."*

What you see in the show apartment is what you receive on possession. Zero substitution. Contractual. Unconditional. Written in the sale deed.

05

## LEGACY

*"The twelve families who take possession become the permanent character of this address."*

The project is governed and covenanted to preserve that character across generations. Not a home. A founding position.

# *Three Creative Languages*

01

## *Breath*

*The primary register. The first impression of Prāna — immediate, unhurried, decided. Every visual choice earns this feeling without announcing it.*

02

## *Growth*

*The material mood. Grounded in place and stone and time. Prāna does not abstract away from the physical world — it celebrates the finest version of it.*

03

## *Amber warmth*

*The underlying register. Prāna does not say what it is — it is known to those who know. This mood is for the collector who needs no introduction.*

# *The Location — Prāna*

HYDERABAD

## *Prashashan Nagar*
## *Jubilee Hills*

THE ADDRESS

### *Jubilee Hills, Prashashan Nagar*

One of India's most established residential precincts. The density of wealth, taste, and institutional proximity here is unmatched in the city. The postcode is itself a credential.

THE CONTEXT

### *Malibu of Hyderabad*

Not a comparison — a reference point. The privacy, the altitude, the views, and the neighbours define the Jubilee Hills premium. Prāna is at its centre, not its edge.

PROXIMITY

### *5 minutes from everything. 0 minutes from privacy.*

The finest schools, hospitals, clubs, and cultural institutions are within minutes. The outside world is available when wanted — never intrusive when not.

THE ADDRESS THAT NEEDS NO INTRODUCTION.
