Śānti

"The End of All Noise."

Śānti does not mean the absence of the world. It means the world at the correct distance — close enough to reach, far enough to forget. Twelve homes where that distance is measured in stone.

12
Exclusively private villas.
One community, permanently defined.

10
Year retained estate management team,
contractually committed post-possession.

0
Material substitutions permitted
after design approval. None. Ever.

CONFIDENTIAL — FOR AUTHORISED PARTIES ONLY

THE DEVELOPER

Vela

"The Standard, Without Announcement."

35 Years · Commercial Real Estate
10M+ Sq Ft Delivered · Residential Debut

ABOUT VELA

Vela has no portfolio of average. We have built a record of restraint — a discipline of doing less, but doing it without compromise. When we finish a project, it is finished. Permanently. Śānti is the residential expression of that discipline: twelve villas in Jubilee Hills, defined by what they are not, and exquisite because of it.

BRAND ARCHITECTURE

35 YEARS | 10M+ SQ FT | COMMERCIAL TRACK RECORD | RESIDENTIAL DEBUT

JUBILEE HILLS | 12 VILLAS ONLY | NO PHASE TWO

THE CONCEPT

The End of All Noise.

12

Deep sage ground, warm sand light, burnished gold accent. The palette of early morning, garden dew, and the specific quality of light through mature canopy.

SCALE

Not selling units. Curating a community. Twelve villas. Not a phase one — the whole project, permanently complete.

SERVICE

Permanent estate team. Concierge per family. Contractual — ten years post-possession. The service is the product.

PERMANENCE

No phase two. No adjacent plot. The twelve-villa structure makes expansion architecturally impossible.

MATERIALS

No substitution after design approval. Designed to a standard — then built to it. What you see is what you receive.

LEGACY

The twelve founding families become the permanent character of this address. Governed and covenanted to last.

LOGOMARK

Ś

Initial mark — geometric, inscriptional, scale-invariant. Works embossed, engraved, or reversed on any surface.

LOGO RULES

> The mark sits in silence — minimum 20mm clear space from any other element on collateral.

> Never set in gold on a light ground — gold is reserved for dark and mid-tone applications only.

> The mark is achromatic in all digital contexts — reserve the gold exclusively for physical print and embossing.

VOICE & TONE

Stillness

Primary register — the first impression

Verdure

Secondary register — the material world

Ritual gold

Underlying register — what is never said aloud

COLOUR SYSTEM

Primary Surface Accent Light Reserve

Deep sage ground, warm sand light, burnished gold accent. The palette of early morning, garden dew, and the specific quality of light through mature canopy.

Three Worlds Within One

01

The Meditation Grove

A private grove of 24 mature bamboo, encircling a polished stone platform. Sound absorbed by the canopy above. A resident wellness practitioner available on residency terms. The only rule: no devices, no conversation.

02

The Reflection Pavilion

A glass and teak pavilion set over a still-water rill. Open on three sides to garden air. The fourth wall is a single sheet of raw travertine. Designed for the moment between arriving home and becoming yourself again.

03

The Silent Courtyard

A walled inner courtyard of handmade terracotta tile and a single stone fountain — volume calibrated to mask all external sound. Twelve families share it; twelve families rarely meet there. That is the point.

The Villas — Śānti

12
PRIVATE VILLAS

Rs 13–20
CRORE RANGE

G+2
THREE-FLOOR CONFIGURATION

EXCLUSIVITY

No shared walls. No shared lobbies. No shared anything.

Every villa is a free-standing structure. Each owner's relationship with the community is voluntary, not architectural.

INTERIOR

Materials specified. Materials delivered.

Every surface, fixture, and fitting is named in the agreement. No substitutions, no compromises. What the drawing promised is what possession delivers.

OUTDOORS

A private garden. A private pool. A private sky.

Each villa owns its outdoor space outright. Landscape design is bespoke — handled by the project's retained design team at the buyer's direction.

PERMANENCE

The community is the twenty-fourth resident.

12 owners define the community forever. The estate management team ensures it stays exactly as designed — from day one through decade three.

FIVE BRAND CLAIMS

What Śānti Does Not Share With Anyone

01

SCALE

"We are not in the business of selling units. We are curating a community."

Twelve villas. Not a phase one. The complete project. Where competitors count floors, Śānti counts families.

02

SERVICE

"We have retained an estate team, contractually, for ten years post-possession."

Not outsourced to whoever wins the next contract. Permanent. Named. Accountable to the twelve families — no one else.

03

PERMANENCE

"There is no phase two. The structure makes expansion architecturally impossible."

Your investment cannot be diluted by a second phase. Your address cannot change by what gets built next door. Structurally protected.

04

MATERIALS

"No material substitution is permitted after design approval."

What you see in the show apartment is what you receive on possession. Zero substitution. Contractual. Unconditional. Written in the sale deed.

05

LEGACY

"The twelve families who take possession become the permanent character of this address."

The project is governed and covenanted to preserve that character across generations. Not a home. A founding position.

Three Creative Languages

01

Stillness

The primary register. The first impression of Śānti — immediate, unhurried, decided. Every visual choice earns this feeling without announcing it.

02

Verdure

The material mood. Grounded in place and stone and time. Śānti does not abstract away from the physical world — it celebrates the finest version of it.

03

Ritual gold

The underlying register. Śānti does not say what it is — it is known to those who know. This mood is for the collector who needs no introduction.

The Location — Śānti

HYDERABAD

Prashashan Nagar
Jubilee Hills

THE ADDRESS

Jubilee Hills, Prashashan Nagar

One of India's most established residential precincts. The density of wealth, taste, and institutional proximity here is unmatched in the city. The postcode is itself a credential.

THE CONTEXT

Malibu of Hyderabad

Not a comparison — a reference point. The privacy, the altitude, the views, and the neighbours define the Jubilee Hills premium. Śānti is at its centre, not its edge.

PROXIMITY

5 minutes from everything. 0 minutes from privacy.

The finest schools, hospitals, clubs, and cultural institutions are within minutes. The outside world is available when wanted — never intrusive when not.

THE ADDRESS THAT NEEDS NO INTRODUCTION.

Śānti

"The End of All Noise."
